

# Torque Converter Alignment Tool

**T-0519AC**

**(5R55N) - (5R55S) - (5R55W)**

1) The T-0519AC incorporates a durable DuPont™ Delrin® bushing that maintains the snug fit while not galling; slightly tapered, easing installation and removal. 2) Precision machined to exacting specifications, it features access holes to allow proper torque sequence with the tool installed. 3) The tool is longer at one end to fit into the case's starter pocket for a non-spin final torque!
